Camp Floyd and Ophir districts will be taken by storm today by a party of Beston capitalists-17 in number, and it is stated that before their return they will examine mining properties in the near vicinity of Mammoth and Silver City in Tintic district.

The party, headed by Dennan Blanchard and Frederick H. Mills, arriving in the city yesterday at noon, was met at Thistie in the morning by Gill S. Peyton and Judge W. A. Sherman, and escorted to the Knutsford hotel, where lunch was served. In the afternoon a run was taken to Saltair on the Great run was taken to Saltair on the Great Salt lake, and this morning, in their own special car, the visitors will be palied to Manning by the regular passenger, where Manager J. G. Jacobs, of the Salt Lake & Mercur, will have a special train in waiting which will convey them to Mercur, from which point the party will leave immediately for Lion Fill, taking in the Eagle mine enroate, the Chloride Point being the special attraction on the bill, although other properties will be inspected.

In the afternoon Messrs, Peyton and Sherman will pilot their guests over to the Sanshine end of Camp Floyd dis-

the Sunshine end of Camp Floyd dis-trict, probably taking in the west dip en route, the objective point being the Overland mine, where ample provisions have been made for the entertainment of the tourists, it being more than likeof the tourists, it being more than like-ly that a stop over night will be made at the Overland cottage.

Tomorrow morning, if the itinerary is carried out, the special car of the party will be attached to the Eureka train, it

being the intention to visit the Picnic and other mines at Silver City. Messrs. Bianchard, Mills and several others of the party are already inter-ested in the Chloride Point, the Overland, the Piente and other Mercur and Tintic properties, and the object of their visit nere with their friends is to show them what there is in the west-ern country in the way of mines, and as not one of the visitors is worth less than \$250,000 and up into the millions, it is believed that their visit here will r suit beneficially to the mining and other interests of the state. ## BACK FROM STATELINE. Judge Burton Is Well Pleased With

This Promising Gold Camp.

Judge J. W. Burton of this city re turned nome yesterday from a visit to Stateline district, where he has been for the purpose of making an examina-tion of a number of gold properties in this promising camp, besides which, representing the Mountain View com-pany of Boston, he seitled the indebtedness against the company incurred in the operation of the Charlie Ross and Buck mines in Eagle Vailey dis-trict, just over the boundary line, and now these claims are in course of development again under the foremanship of Dan McLeod, who is giving employment to a force of eight men, O. A. Palmer, M. E., the manager, being on the ground to direct operations.

Judge Burton, in an interview with a representative of The Herald regarding his impressions of Stateline stated.

ing his impressions of Stateline, stated that he was much pleased with the camp, and he stated that he was of the opinion that with further and more thorough development a number of promising mines would be disclosed there, the judge making special mention of the Creole and adjoining mines

In the pit of the exchange yesterday morning Sunshine sold at 66 cents, and immediately after the call sales were made at 75 cents, being a rapid ad vance for stock that went a-begging elx weeks ago at 25 cents. To crown all, however, this recurity was in earnest demand in the afternoon at \$1 a share, and brokers were skirmishing hard until the close of business hours for the stock at this figure.

The cause for this force was almost as eagerly sought for as was the stock itself no one seemingly being able to

itself, no one seemingly being able to assign a good reason for the sudder and unlooked-for advance, other that that Charles Butters, the well knows metallurgist, who it is stated, has discovered a process whereby Sunshim ores can be treated at a high and sat isfactory saving, and while it is kno that this gentleman has not as yet cured an option on the stock of company, it is surmised that he working in this direction, and it is b lieved that if he is successful in the attempt he will soon start up the fin with which the property ed, and that the shares of the organization will be placed on the Lot market, and that this will c the stock to advance to at least \$3 a

At the effice of the company as much surprise was expressed as on the streets at the sudden advance made in Sunshine shares, Judge W. A. Sherman stating that he knew of no reason why these gains should be made, although he was of the opinion that the stock past, considering the value of the prop-

erty, in which he had never lost a par-ticle of confidence.

At the close of business hours on the curb last night the stock was still in active demand at \$1 a share in 1,000-share lot, and even this falled to draw out much of this Camp Floyd security.

Mercur, Oct. 13.-The Golden Gate nade a shipment of about three tons of cyanides this week, which would probably be valued at not less than

than formerly.

Considerable progress is being made Messrs. Pickett and Miller are now on the ground, having departed for that section two or three weeks ago, and upon their return it is expected they will have good news from that locality for Heraid readers, and it is more than likely that they will bring back with them a shipment of high grade gold ore.

RISE IN SUNSHINE.

Considerable progress is being made in the enlargement of the Golden Gate mill. The foundation for the new tunks is completed and the erection of the tanks is now in progress. This is the part of the work that takes time to complete and as many men are employed as can be conveniently carried.

At the Omaha, two shifts are employed at each of the shafts, and satisfactory progress is being made and good values are being found.

Work has been commenced in the erection of the building for the La Cigale roaster. It will be 30x50 feet, and Indomitable will and tremendous extension.

In fact, he is enthusiastic over the wonders in the mineral way that he saw in them, and after visiting the Sacramento, at Mercur; the Daisy, on the west dip; the Caloride Point and Columbia on Lion hill, and the Star Consolidated at Mammeth, he declares that never before in all of his mining experience has he seen such mammoth bodies of ore as he inspected in these properties, the contrast between the codies of ore as he inspected in these properties, the contrast between the instrow but rich veins of southern California and the great zones of milling and shipping stuff in the districts named being largely in favor of the atter. Associated with his brother, W. E. Hubbard, Mr. E. S. Hubbard will foubtless become interested in several mining enterprises in the Oquirh range.

Mr. Hubbard has had considerable experience in mining in Old Mexico, California and Arizona, and expresses himself as much impressed with the immense ore zones shown in the mines of both Mercur and Tintic, and he be-

The Annie Laurie Dump.

From parties who are in the city from Gold Mountain district, in Piute county, it is learned that Frank Hines the former superintendent of the North-ern Light, on Lion hill, has secured a lease on the Annie Laurie dump, con-taining about 1,000 tons of \$15 and \$20 ore, and that it is his intention to work ore, and that it is his intention to work the same through the little Hunting-ton mill at the mine. In fact, Mr. Hines has already begun operations, and it will not be long now before Gold Mountain gold buillon will begin to find its way to the Salt Lake market, and it is stated that Mr. Hines is making arangements to run the plant all

Captain Timothy Egan of the Golden Star has also returned from Gold Mountain district, and he states that the mines of the camp are looking well

and improving with development.

The object of the captain's visit to the district, however, was to see about the new wagon road now building from the Annie Laurie down Mill creek to the offered and he attack that the to the railroad, and he states that this thoroughfare from the mines of the camp to the outside world will doubt-less be open for travel by Christmas.

DEATHS AT PROVO.

Three Well Known Women Passed Away Yesterday

(Special to The Herald.) Provo, Oct. 13 .- Mrs. Jane Davies-Lewis, the wife of Bishop Lewis of the Discovered.

Leadville, Colo., Oct. 15.—While kickling about some dirt at the city dump,
Frank Burkhart unearthed a cave in
which he found some very rich ore exposed. The officers were at once notified and upon investigation found a cache from which they extracted 50 sacks of old gold and silver ore. The stuff had evidently been hidden away during the last ten-days and has been stoller from different mines as it was met. They first lived in Ogden and to during the last ten-days and has been stollen from different mines, as it was to a different character. From samples assayed the ore is shown to be enormously rich and will probably prove to be worth \$110,000.

STANDARD OIL WRANGLE. Trust's Attorneys Did Not Keep Wit-

nesses On Tap. New York, Oct. 13.—The session of the special commission investigating the affairs of the Standard Oil company was little more today than a wrangle over the production of records and witnesses. Attorney General Monett had a heated discussion with Mr. Eline, one of the Rockefeller attorneys, over the latter's failure to produce certain witnesses, as Mr. Kline had agreed. Kline asserted that he "did not keep witnesses on riap," and advised Attorney General Monett to get them for himself.

The defense failed to produce the books of the Ohio Standard Oil company, and a deputy sheriff was charged with serving subpoenaes for the books and witnesses. There is some doubt whether he was qualified to act under the direction of a commissioner from Ohio, but Mr. Monett said if this proved true he was not yet at the end of his resources. Mr. Rockefeller was not present today. New York, Oct. 13 .- The session of the

OVATION TO GENERAL MILES. "Hero of Two Wars" at the Omaha

Exposition. Omaha, Oct. 13.-General Nelson Miles was the central figure in the reception tendered to army heroes at the exposition today. It was another ideal exposition day. The crowd was by no means suggestive of the surging multitude of the day before, but it far exceeded that of ordinary occasions, General Miles entered the building especial corried by President Wattles and ac-companied by his staff, General Gree-ly, several members of the diplomatic corps, Governor Holcomb and members of the local reception committee. Governor Holcomb was introduced to

speak in welcome to the guests of the day. The governor alluded to General Miles as the hero of two wars, which incited a tumult of cheers and hand-ciapping, which did not subside until President Wattles led the distinguished President Wattles led the distinguished soldier to the front of the platform, when the crowd arose and greeted him with three ringing cheers. He said:

"I am deeply gratified that the people of the west have set aside one day of this exposition in honor of the army and navy of the United States. By the army and navy, I mean every part of the physical force that has added to the strength, perpetuity and grandeur of this republic."
